4th Quarter and Year 2010 Financial Results
February 2011

Safe Harbor Statement

Except for the historical information contained herein, this presentation contains among other things, certain forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties. Such statements may include, without limitation, statements with respect to the Company's plans, objectives, expectations and intentions and other statements identified by words such as "may", 'could", "would", "should", "believes", "expects", "anticipates", "estimates", "intends", "plans" or similar expressions. These statements are based upon the current beliefs and expectations of the Company's management and are subject to significant risks and uncertainties, including those detailed in the Company's filings with the Securities and Exchange Commission. Actual results, including, without limitation, operating or financial results, if any, may differ from those set forth in the forward-looking statements. These forward-looking statements involve certain risks and uncertainties that are subject to change based on various factors (many of which are beyond the Company's control). Forward-looking statements include statements regarding:

- The delivery and operation of assets of Star Bulk, the surviving corporation in the Redomiciliation Merger;
- Star Bulk's future operating or financial results;
- Future, pending or recent acquisitions, business strategy. Areas of possible expansion, and expected capital spending or operating expenses; and
- Drybulk market trends, including charter rates and factors affecting vessel supply and demand.

The financial information and data contained in this presentation is unaudited and does not conform to the Securities and Exchange Commission's Regulation S-X. Accordingly, such information and data may not be included in , or may be presented differently in, the Company's proxy statement to solicit shareholder approval for the Redomiciliation Merger. This presentation includes certain estimated financial information and forecasts (EBIT, EBITDA, and Time Charter Equivalent Revenue) that are not derived in accordance with generally accepted accounting principles ("GAAP"). The Company believes that the presentation of these non-GAAP measures provides information that is useful to the Company's shareholders as they indicate the ability of Star Bulk, if the Redomiciliation Merger is effected, to meet capital expenditures, working capital requirements and other obligations, and make distributions to its stockholders.

The Company undertakes no obligation to publicly update or revise any forward-looking statements or other information or data contained in this joint proxy statement/prospectus, or the documents to which we refer you in this joint proxy statement/prospectus, whether to reflect any change in our expectations with respect to such statement or any change in events, conditions or circumstances on which any statement is based, or otherwise.

Supply Update

- ★ 2010 non-deliveries ~30%
- **★ 30% expected non-deliveries in 2011** (SSY)
- Deliveries to slow down after 2011
- Congestion always a wild card
- Fleet growth could slow down once scrapping picks up

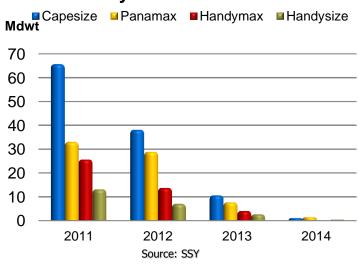

SSY Australian Combined Port Congestion Index

2010 Deliveries vs Orderbook

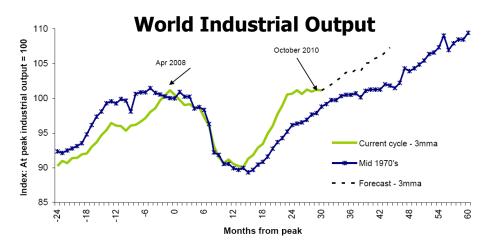

Dry Bulk Orderbook

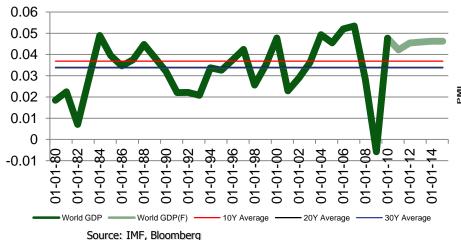

Global Economy Health Signs

- World industrial production expected to continue growing
- **Developed economies set for** continued recovery
- **★** IMF forecasts Global GDP growth of ~4.5% for the next 5 years – significantly above historical averages

World GDP

Developed Economies' PMI vs IP

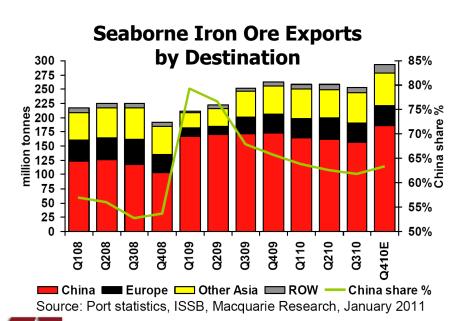

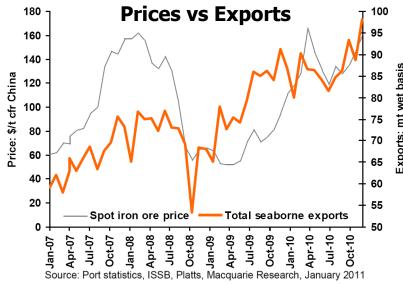

Source: ISM, Markit, Macquarie Research, February 2011

Global Seaborne Iron Ore Trade Surging

- Record high prices on record high volumes solid fundamentals
- China's imports back to record highs in balance with the rest of the world
- ★ India's exports expected to keep shrinking
- Iron ore trade to continue growing strongly

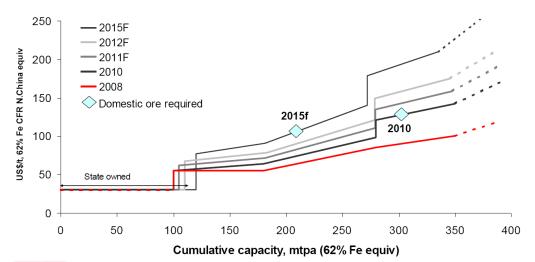

Source: Shipping sources, Macquarie Research, December 2010

Chinese Iron Ore Imports Bound to Grow

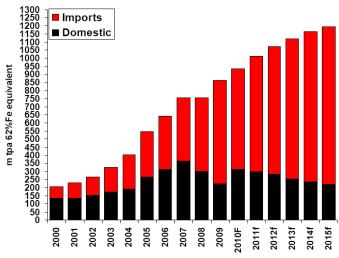

- Chinese iron ore imports will inevitably grow strongly due to low quality domestic reserves
- ★ Domestic iron ore production is expected to shrink in the following years
- ★ Imports from small iron ore producers doubled in only 3 years diversification to continue

China Domestic Iron Ore Production Cost

Chinese Imports from "non-Big4" Regions

Source: Shipping sources, ISSB, Macquarie Research, February 2011

Lack of Cargoes Temporary

- Recent floods in Australia have reduced coal and iron ore cargoes
- ★ Also disruptions in Brazil, S.Africa, Columbia, Russia and Indonesia
- ★ Brazilian and Australian exports traditionally low in Q1
- **★** Once cargo flow returns to normal rates should rebound

Global coal supply disruptions

Russia - 2010 exports around 65 million tonnes, down 5 mln tonnes from target. At present ship loading at most ports is delayed due to cargoes of coal arriving frozen in rail wagons.
